

3. Classes can be used to derive or instantiate many _____

- A. Attributes
- B. Objects
- C. Methods
- ☒ D. Objects and methods

B) Objects je

10. Local variables are variables declared within _____

- ☒ A. Class
- B. Constructor
- C. Method
- D. Package

C)

```
class ihatejava{  
    public int A; //this is attribute or instance variable  
    static int s; //this is static variable  
  
    public void static main (String args[]){  
        int B //this is local variable  
  
        for(int i = 0; i < 3; i++){ // i is block variable  
            System.out.println("Bello");  
        }  
    }  
}
```

13. A variable declared inside the class but outside the body of the method is called _____

- A. An instance variable
- B. A local variable
- ☒ C. Static variable
- D. External variable

A) lihat atas
